SUBJECT INDEX - VOLUME 62

Air
pollutant induction of human placental MFO 93
Alachlor
removal from water with ozone 324
Aluminum
Ca and algal response 179
Ammonia
toxicity to juvenile shrimp 646
Ammonium
cell uptake 70
Ammunition
soil contamination after explosion 700
Arecoline
teratogenicity to chicken embryos 356
Arsenic
liver hyperplasia and kidney fibrosis in trout 169

Benzofuran
profiles in fish, crayfish, sediment 239
Benzoic acid
toxicity to *Tetrahymena* 616
Benzopyrene
DNA binding in mussel 455
BHC
influence on plant nutrients 371
Bioassay
acute toxicity with luminescent bacterium 247
earthworms for soil toxicity 547
earthworm wound healing for chemicals 508
extrapolation of wildlife toxicity data 653
fluoride ion in urine 677
for endotoxins 25
for environmental metal toxicity 169
for PCB and pesticides in human blood 8
for pyrethroid in humans 101
oxygen production rate for copper toxicity 776
prediction of partition properties, PCOCs 530
sperm cell for metals & pesticides 749
spider for pollutants 563
three methods for sediment heavy metals 708

Cadmium
effect on proteolytic activity, *Tilapia* 193
in sediment and earthworms 301
in sheep, Greece 691

in vegetables, Ethiopia 30
inducible metellothionein, Tilapia 758
reduction of toxicity with zeolite 222
Calcium
Al and algal response 179
Carbamate
AChE activity in carp 731
Carbofuran
effect on soil N_2O production 584
Chlorophenol
oxidation by hydrogen peroxide 336
tolerant marine bacteria 272
Chlorpyrifos
degradation in soil 48
residues in tomatoes 377
Chromium
dynamics in mussel 286
pollution in prawn fishery 476
toxicity to catfish embryo 230
Copper
accumulation in *Tilapia* 160
in forest soil, Mexico 138
in fruits and vegetables, Slovakia 409
in sediment and earthworms 301
in sheep, Greece 691
reduction of infection resistance, catfish 490
toxicity to *Rhodomonas* 776

DDE
in pelicans, Greece 383
DDT
in human blood, Mexico 397
DDVP
effect on intestinal proteolytic activity, *Tilapia* 193
Deltamethrin
physiological changes in catfish 254
Dinitrotoluene
disappearance 390
Dioxin
profiles in fish, crayfish, sediment 239
toxicity with PCBs 539
Dye
sorption by peanut hulls 428

Edosulfan
in tomatoes, Brazil 671

Effluent
algal growth in distillery waste 483
pulp mill toxicity to trout 608
toxicity of lipophilic compounds 434
toxicity with fish egg test 440
Endocrine
sex determination in *Daphnia* 214
extract effects on trout 7206
methoxychlor no effect 578
PCB exposure & female behavior 664
Exposure
biological monitoring for pyrethroids 101
endosulfan in tomatoes, Brazil 671
fungicides in wine 717
humans & dry river agriculture 555
lawncare pesticides in water 420
measurement of fluoride in urine 677
pesticides in homes, Australia 309
to endotoxins 25
to sulfluramid 515
urinary toluene and xylene 109

Fenvalerate
influence on plant nutrients 371
Ferritin
metal binding properties 502
Fluoride
ion in urine 677
Fluorocitrate
degradation in water 34
Formaldehyde
formation with UV 416
Fungicide
in wine, Spain 717

Heavy metal
Cd effect on proteolytic activity, *Tilapia* 193
Cd and Pb in Ethiopian vegetables 30
Cd inducible metellothionein 758
Cd toxicity reduction with zeolite 222
Cr and phenol toxicity in prawn fishery 476
Cr dynamics in mussel 286
Cr toxicity to catfish embryo 230
Cu and Pb accumulation in *Tilapia* 160
ferritin metal binding properties 502
Hg toxicity and biocencentration in bacteria 79
in Arabian Gulf fish 293

in forest soil, Mexico 138
in fruits and vegetables, Slovakia 409
in maroalgae, Greece 630
in oak forest soils, Mexico 138
in sediment and earthworms 301
in sediments, Irish Sea 40
in sheep, Greece 691
in shrimp, Brazil 152
in soil, Croatia 700
Pb accumulation in *Tilapia* 160
Pb ambient urban levels 403
Pb in forest soil, Mexico 138
Pb in sediment and earthworms 301
Pb in sheep, Greece 691
Pb in vegetables, Ethiopia 30
removal by microalgae 144
reduction of infection resistance, catfish 490
reproductive characteristics, Platyhelminthes 130
Se growth effect on cyanobacterium 591
Se in chironomid larvae 122
three methods for sediment 708
toxicity to *Rhodomonas* 776
Zn effect on ATPase of crab gill 63
Zn in forest soil, Mexico 138
Zn in fruit and vegetables, Slovakia 409
Zn in sediment and earthworms 301
Zn in sheep, Greece 691
Herbicide
leaching 520
toxicity of 2,4-D to frog skin 570
2,4-D kidney pathology 600
Hexachlorocyclohexane
effect on soil N_2O production 584
Human
chromosome aberrations in humans from marijuana 117
endosulfan in tomatoes, Brazil 671
exposure to endotoxin 25
exposure to sulfluramid 515
health hazards from agriculture 555
monitoring for pyrethroid exposure 101
organochlorine pesticides in fat & milk 685
PCBs and pesticides in blood 8
pesticides in homes, Australia 309
placental MFO induction by air pollutants 93
urinary toluene and xylene 109

Iprodione
residues in cauliflower 496

Lactone
structure-activity to *Tetrahymena* 463
Lead
accumulation in *Tilapia* 160
ambient urban levels 403
in forest soil, Mexico 138
in sediment and earthworms 301
in sheep, Greece 691
in vegetables, Ethiopia 30

Lindane
cytotoxicity to human hepatoma 16

Marijuana
chromosome aberrations in humans 117
Manganese
in forest soil, Mexico 138
Mercury
toxicity and bioconcentration in bacteria 79
Methoxychlor
hatch & startle response effects 578
Methyl Parathion
effect on Rotifera growth 769

Naphthalene
effect on proteolytic activity, *Tilapia* 193
effect on esterase activity, crab 743
Nitrate
cell uptake 70
in vegetables, Greece 187
Nitrite
in vegetables, Greece 187
Norflurazon
adjuvant reduction of leaching 315

Oil
diesel fuel effect on pearl dace 638
effect on feeding of shrimp 259
toxicity to Mysid 266
toxicity to sand crab 469
Organocholorine
in human blood, Mexico 397
in human fat & milk, Mexico 685
in pelicans, Greece 383

pesticides in water, organisms, Turkey 278
QSAR 530
Organophosphate
AChE activity in carp 731
Organotin
inhibition of glutathione transferase 207

Paraquat
cytotoxicity to human hepatoma 16
PCB
in human blood 8
in pelicans, Greece 383
perinatal exposure & behavior 664
toxicity with dioxins 539
Pentachloroanisole
toxic oil syndrome 1
Pentachlorophenol
toxic oil syndrome 1
toxicity to catfish embryo 230
Permethrin
toxicity to bass 448
Phenol
acclimation of algae 87
pollution in prawn fishery 476
Phthalate
lipoxygenase inhibition 352
Phyloxine B
dissipation 344
Phosphate
cell uptake 70
Piperonyl Butoxide
toxicity to bass 448

QSAR
for polychlorinated organics 530

Risk
Inter-species extrapolation, wildlife 653

Selenium
concentrations in chironomid larvae 122
growth of cyanobacterium 591
Sodium monofluoroacetate
degradation in water 34
Structure - Activity
lactones to *Tetrahymena* 463

Sulfluramid
risk to humans 515

1080
degradation in water 34
Tin
organotin inhibition of glutathione transferase 207
triphenyltin developmental toxicity in rats 363
TNT
disappearance 390
Toluene
urinary monitoring 109
Toxic oil syndrome
pentachlorophenol + pentachloroanisole 1
Tributyltin
sex determination in *Daphnia* 214
Triphenyltin
developmental toxicity in rats 363
2,4-D
kidney pathology 600
toxicity to frog skin 570

Uranine
dissipation 344

Water
acclimation of algae to phenol 87
AChE inhibition & recovery in carp 731
agricultural residues in streams 55
alachlor removal with ozone 324
algal growth in distillery waste 483
ammonia toxicity to shrimp 646
benzoic acid toxicity to *Tetrahymena* 616
Cu reduction of catfish infection resistance 483
diesel fuel effect on pearl dace 638
dioxin and benzofuran profiles in fish 239
dye and bleaching industry impact, India 330
effluent toxicity with fish egg test 440
extract estrogenic effects on trout 7206
heavy metals and reproduction of Platyhelminthes 130
heavy metals in algae, Greece 630
heavy metals in Arabian Gulf fish 293
heavy metals in Irish Sea sediments 40
heavy metals in shrimp, Brazil 152
heavy metal removal by microalgae 144
herbicide leaching 520
lawncare pesticides 420

lipoxygenase inhibition by phthalate 352
marine bacteria tolerant to chlorophenol 272
methyl parathion & rotifera growth 769
oil effect on shrimp feeding 259
oil toxicity to Mysid 266
oil toxicity to sand crab 469
organochlorines in water, sediment, and fish, Brazil 199
organochlorines in water, organisms, Turkey 278
pollution in Agadir Bay, Morocco 623
pulp mill effluent toxicity to trout 608
Se in chironomid larvae 122
toxicity of lipophilic effluent compounds 434

Xylene
human urine monitoring 109

Zinc
effect on ATPase of crab gill 63
in forest soil, Mexico 138
in fruit and vegetables, Slovakia 409
in sediment and earthworms 301
in sheep, Greece 691
